Mini Cog

--------
1. Please listen carefully. I am going to say three words that I want you to repeat back to me now and try to remember. The words are BANANA SUNRISE CHAIR. Please say them for me now.

2. Next, I want you to draw a clock for me. First, put in all of the numbers where they go. When that is completed, say: Now, set the hands to 10 past 11.

3. What were the three words I asked you to remember?

   Recall ___/3
   Clock ___/2

A cut point of <3 on the Mini-Cog has been validated for dementia screening, but many individuals with clinically meaningful cognitive impairment will score higher. When greater sensitivity is desired, a cut point of <4 is recommended as it may indicate a need for further evaluation of cognitive status.
